

PSI DELTA TAU MILITARY FRATERNITY, INC.

Hello, my name is Warren Close, and I was the International President of the most elite military Fraternity in the world from 2020-2022. Before becoming the International President, I served this organization as its Education Director and then as the Chief of Staff. I pride myself on only joining organizations or clubs with true merits, it was a no brainer to become a member of Psi Delta Tau Military Fraternity, Inc. I was inspired by the vision of the founding members and their backgrounds as members of several Divine Nine collegiate Fraternities. This military fraternity offers me, and others like me, the opportunity to fellowship with people that believe in setting the bar high, taking care of their battle buddy, and community service; but also knowing how to have a good time when the mission is complete (Work Hard/Play Hard).

I am a retired Army Sergeant Major of 32 years and I continue to serve military service men and women of my community through initiatives from this Military Fraternity, as an elected officer in my local VFW Post, and as an elected officer in my local chapter of the Buffalo Soldiers Motorcycle Club. I love sharing this fraternity's story and accomplishments with others because I believe in its mission and five initiatives.

I would like to thank the founding line of this great organization, "13 Dynasty of Virility", for believing and trusting in me to take on each leadership role that was asked of me. I would also like to thank every fraternity member for allowing me to serve as their National Chairman Joint Chief of Staff from 2018-2019.

It is always our mission to do good things in our community and be positive role models for our military service members as well as be the benchmark for all Military Greek Letter Organizations (MGLO). I believe in helping tomorrow's leaders today and today is now! By using key fundamentals principals to ensure growth and success it is my hope that while I served in key leadership roles, I was able to instill these in our fraternal members.

Psi Delta Tau is building a rich history, and it is my intention to further establish that foundation while building for the future.

W.B. Warren A. Close
