

# PSI DELTA TAU MILITARY FRATERNITY, INC.

Greetings et al,

My Name is Andre L. Cuthbertson, and I first would like to introduce myself to you all and take this opportunity to express how excited it is to be the International President of this elite military Fraternity.

I am an active-duty Marine Sergeant Major with over 26 years and within the past two years; I served as the Joint Chief of Staff (J-1) Administrator Director for this elite fraternity.

What I learned through these assignments is that “people don’t follow their own footsteps in life if they wish to lead, as they would walk in circles following themselves” instead, they start as a servant leader by listening to inspire to build influences for those to follow. This is when you begin to lead.

It was great getting to know all of our current members personally and those who sought to join this most elite fraternity. Over my two years I fostered the opportunity to engage our initiatives to a degree that engulfs teamwork. Understanding more about your role within the organization and by working the same goals together we established a stronger relationship within our Fraternity.

Finally, and most of all, I would like to thank the 13 Dynasty of Virility our founders for their inspiration and influence by setting the footprints of success for us to follow. As a Past International President, I can proudly say that I built upon its core foundations and initiatives.

*HB Andre L. Cuthbertson*
